

## Spotlight On Our Partner Tyler Arboretum

### Introducing Tyler Arboretum

Good and nutritious food should be available to anyone. That's why Tyler Arboretum has shared the food grown there in Lucille's Garden with the Media Food Bank. In 2022, they donated 1,700 lbs of fresh produce grown by the Tyler staff and over 40 volunteers which fed between 80-100 families per week.

### Tyler Arboretum and Sun East Foundation

Tyler Arboretum's partnership with Sun East Foundation provided the supplies that were needed to grow fresh and healthy vegetables to give to people in need at the Media Food Bank. From seed starting mix, seeds, and young plants, the grant allowed them to plant a large variety of vegetables.

Sun East Foundation's support has been critical to increasing the fresh produce they give to the Media Food Bank. The addition of cold frames to their growing process helped to get a head start on the 2023 growing season and Foundation support helped to accomplish that. Coupled with the Foundation's support of seeds and seedlings, Tyler was able to produce earlier crops to benefit Delaware County residents.

"We are most grateful to Sun East Foundation for their years of partnership supporting Lucille's Garden. This year's funding is just the boost we needed to continue our weekly donations of nutritious produce to the families served by the Media Food Bank. Together, we are caring for our shared community."
